

THE DEPARTMENTS YOU DO NOT HAVE

**In a bigger
organization,
these are
different people.**

Strategy.

Where the organization is actually going.

Fundraising.

The funders, the calendar, the asks.

Communications

How all of it sounds.

Operations and finance.

Making the week actually run.

The board and the technology.

The room, and everything that keeps
breaking.

In a small nonprofit that is one person. And the hard part was never the workload.

It is that there
is nobody to
think any of it
through with.
